The main header includes navigation tabs: Home, Drug Interactions, IV Compatibility, Drug ID, Drug Comparison, CareNotes®, NeoFax® / Pediatrics, and Other Tools. A search bar is prominently featured with the text "Search Drug, Disease, Toxicology, and more" and "Search Micromedex". Below the search bar are three main content sections: "Latest News" with a list of recent drug approvals, "Support & Training" with links to tips, search examples, and user guides, and "Resources" with links to black box warnings, dosage tables, and drug classes. Each section has a corresponding action button at the bottom: "Read Top News", "Support Request", and "Download Mobile Apps". The footer contains copyright information and various links.
